PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science student pursuing an M.Tech (Integrated) in Computer Science and Engineering at Vellore Institute of Technology. Strong interests in programming, problem-solving, teamwork, communication, and creative technologies. Eager to develop technical skills, gain practical experience, and contribute effectively to software and technology-oriented projects.

EDUCATION

Vellore Institute of Technology (VIT), Vellore *2024 – 2029*
M.Tech (Integrated) – Computer Science and Engineering | CGPA: 8.08

Government Higher Secondary School, Anukkur *2022 – 2024*
Higher Secondary Certificate (HSC) – Science Stream | Scored: 90.5%

TECHNICAL & PROFESSIONAL SKILLS

Programming Languages: C, C++, Java, Python, HTML, CSS, JavaScript, Servlet

Communication Protocols: CAN, TCP/IP, UDP, IPv4, IPv6

Creative Skills: Graphic Design, Video Editing

Core Skills: Problem Solving

Professional Skills: Leadership, Communication, Teamwork, Time Management

PROJECTS

CampusVote-ZK – Privacy-Preserving Campus Voting System
Tech Stack: FastAPI, MySQL, Solidity, Hardhat, Blockchain

- Developed a privacy-preserving campus voting platform with a FastAPI backend, MySQL database, and Solidity smart contracts.
- Implemented student authentication, eligibility verification, secure password hashing, and election APIs.
- Integrated off-chain database storage with on-chain vote verification to maintain privacy, integrity, and tamper resistance.

EcoBudgetSelectorPro
Tech Stack: HTML, CSS, JavaScript, Subset Sum

- Developed a budget optimization web application to find project/expense combinations within a user-defined budget.
- Implemented the Subset Sum algorithm to identify exact and closest budget matches.
- Built dynamic input validation, district-based eco-project selection, and result tables, and deployed the application using Netlify.

AI-Based Soil Nutrient Prediction and Monitoring System
Tech Stack: Python, Machine Learning, Sensor Data

- Developed an academic project focused on predicting soil nutrient levels using machine learning techniques.
- Worked with sensor-based soil data and applied regression-based analysis for nutrient prediction.
- Explored the integration of sensor data, machine learning, and data analysis for agricultural applications.

ACHIEVEMENTS

- Chief Minister's Trophy Winner – Hockey (2026).
- Secured 1st Rank in the District in Class 12 Board Examinations.
- Awarded 100% Scholarship under the VIT STARS Scheme.
- Maintained 100% Attendance during the 1st Year at VIT.
- Secured District 1st Place in Thirukkural Recitation during Kalai Thiruvizha 2023–2024.
- Secured District 1st Place in Football.
- Won 1st Prize in the VIT Freshers Hockey Tournament.

CERTIFICATIONS & WORKSHOPS

- Mobile App Development Workshop – Vellore Institute of Technology
- Internshala Student Partner Program – Successfully completed Student Partner responsibilities
- AI Tools Workshop – Be10x
- Hardware & Networking Course – Kalai Tally Institute
- UI/UX Design Workshop – Skill Dragon

AREAS OF INTEREST

Software Development • Programming • Web Development • Problem Solving • Creative Design
